Morning Oregonian.

VOL. XVIII.—NO. 187. PORTLAND, OREGON: WEDNESDAY, SEPTEMBER 11, 1878. PRICE—TEN CENTS.

GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

About a Forged Note.

CHICAGO, Sept. 9.—In connection with the Stickney defalcation, it was rumored on the street to-day that a forged note of $10,000, given by the first national bank of Chelsea, has been discovered. Inquiry developed the fact that such note was indorsed by Charles T. Stickney as treasurer. An attachment of the face value of the note was made on the property of the men named this morning. Parties in interest claim that the note is genuine.

A Heavy Failure.

NEW YORK, Sept. 9.—The liabilities of the Oxford Iron Company of New Jersey will not exceed $1,000,000, of which $250,000 is due the Delaware, Lackawanna & Western Railroad Company, which is fully covered by mortgage. The company's loss will be very slight any.

President Hayes and Party.

HASTINGS, Minn., Sept. 9.—President Hayes and party left St. Paul this afternoon and arrived at Hastings at 1 o'clock. The space about the depot was densely packed. A large delegation of prominent men received the distinguished guests. The party took a carriage to Vermillion falls, and from there to the residence of Gen. Leduc in the suburbs. Mrs. Leduc served an elegant lunch, and some time was passed in an informal and extremely social manner. At 3 o'clock an escort of veteran soldiers, firemen, temperance societies and citizens with brass bands accompanied the party to the court house, where, on a platform erected for the purpose and handsomely decorated, President Hayes was welcomed by thousands of people from the county and country. Time was short and the mayor only briefly extended thanks, calling on General Devens, attorney-general, who responded briefly to recollections of Minnesotians during the war and said he hoped to meet again in time of peace and compare the change of the condition of things. At the time of the war for independence great wilderness stood between here and the east. States now, great states, spread out the country and beyond. We have named it in the name of liberty, liberty secured by law. Mere description cannot realize to the great northwestern empire. Railroads have valued regions vaster than he had dreamed of that will be, ultimately peopled by countless millions. Whatever its wealth and power let its rich growth be men and women. Mr. Yancey of Georgia, eloquently spoke of the good feeling exhibited by the northern to its southern brothers. Gen. H. H. Sibley welcomed the president in the name of the Democracy of Minnesota. At 4:30 the procession again started and the procession moved through town to the depot. The city was finely decorated and the streets crowded. It was a celebration for so small a place.

Butler Gets His Boston Democrats.

BOSTON, Sept. 9.—The Democrats of this city held caucuses last evening for the election of delegates to the state convention. In nearly every ward Butler delegates were chosen. The general complexion of the entire Boston delegation is said to be decidedly in favor of Butler.

The Russian Letter.

CHICAGO, Sept. 9.—The *Tribune's* Washington special says: The Democrats of the Potter committee have certainly had some documents offered which purport to be originals of the Russian letter.

The Great Thing from Deadwood.

FORT CROOK, Wy., Sept. 9.—Both coaches were stopped about 12 o'clock last night, near Lightning creek and Cheyenne river, by three armed men. The up coach contained two passengers and had one messenger with it. They first halted the down coach, robbed all the passengers, and were engaged in plundering mail sacks when the mail bound coach arrived, which they also stopped, and after robbing the two passengers proceeded to cut open and rob the mails. Not being open the treasure boxes and took no contents, but it is thought that they got about $200 in money from the passengers, from whom they took jewelry and watches; also a watch from the driver and one from Wells Fargo & Co.'s messenger Smith, who remained in the coach with the passengers, got out, intending to fight the robbers off. One of the thieves, who was a passenger in front of him, marched to the coach and compelled Smith to give up his gun, and then killed the passenger. They also took Smith's arms. They took all precautions by keeping passengers behind their backs. One of the thieves, who was not masked, was recognized as James E. Johnson, commonly known as "Lengthy."

The Maine Election.

PORTLAND, Sept. 10.—By the present showing Lane must be defeated. The senate seems to stand 20 Republicans to 11 Greenbacks and Greenback Democrats. No Democratic ticket.

New Hampshire Politics.

CONCORD, Sept. 10.—The Republican state convention met to-day. After the selection of committees and appointment of the usual committees the convention proceeded to ballot for governor. Nat. Head was nominated.

EUROPEAN NEWS.

Movement of Russian Troops.

BUCHAREST, Sept. 9.—The Russians have commenced embarking troops at Varna and Burgas. They constructed a bridge at Tchernavoda to aid in the evacuation of Dobrudscha.

The German Emperor on Socialism.

BERLIN, Sept. 9.—In his speech from the throne, read at the opening of the Reichstag to-day, the emperor expressed the hope that the anti-Socialist bill will be adopted, that the leaders of the pernicious socialist movement may be arrested and that those who have been misled by it may be brought back to the right path.

Austria and Herzegovina.

VIENNA, Sept. 9.—Occupation of Trebinje by the Austrians has given a *coup de grace* to the insurrection in Herzegovina. The Turks have commenced to dismantle the fortifications of Podgoritza as a measure preliminary to surrender of the place to the Montenegrins.

A Big Austrian Army.

VIENNA, Sept. 9.—The Austrian troops in Bosnia number 200,000. Operations on a large scale are expected to begin to-day or to-morrow, when the insurgents in the neighborhood of the Servian frontier, numbering about 25,000, will be taken in the rear by a simultaneous movement from Doboj Bciska and Semjero.

No Whales Caught.

LONDON, Sept. 9.—A letter from Disco, Davis Straits, dated 12th July, says: Not one vessel of the Arctic whaling fleet had caught a single fish. It was expected the season would prove a complete failure. No vessel had been able to pass through Melville bay, which was unprecedented. The bay from the neighboring heights appeared completely blocked with ice.

The Turk Doesn't Come to Time.

BERLIN, Sept. 9.—The German government recently sent a circular to the signatories of the treaty of Berlin asking them to take a common step with a view of bringing the Porte to execute stipulations of the treaty. Russia and France replied affirmatively. But England have not yet answered, and will doubtless reply affirmatively soon.

Reverses Cyprus.

LONDON, Sept. 9.—In Cyprus 500 men are under fever hospital out of a force of 2,000.

Critical Epoch in India.

CALCUTTA, Sept. 9.—It is generally recognized that the present is one of the most critical epochs in the history of India. A single false move in the conduct of the mission to Afghanistan may involve not only a costly frontier war but wider complications. The mission forms a single step in an extended and concerted scheme for the protection of India.

Austria's Little Contract.

VIENNA, Sept. 10.—Gen. Zach ordered retreat from Rihasso at 3 in the evening. Four hundred wounded had been brought in before 12 o'clock, amongst whom were several officers of high rank. It is fear this year's campaign, which can only be continued three weeks longer, will not suffice to quell the insurrection.

Thirty conspirators have been arrested at Serajevo, who had intended to fire the town.

THE WOE OF THE SOUTH

Worse and Worse at Memphis.

MEMPHIS, Sept. 9.—The condition of our city grows more desperate every hour. Of new cases it is useless longer to keep count. Whole families are stricken down within a few hours, and the call for nurses is greater than can be supplied. Yesterday there were about 100 deaths and 300 new cases, and to-day up to noon, seventy deaths are reported and the death rate to-day will probably exceed that of any previous day. Among the deaths reported this morning are Dr. E. C. Slater, pastor of the Methodist church, Sister Catharine, of St. Mary's, Wm. A. Rubb, Jacob Loeb and Dr. Nelson.

Monday's Report from New Orleans.

NEW ORLEANS, Sept. 9.—New cases, 144 deaths, 87.

Acting on the Law of Humanity.

WASHINGTON, Sept. 9.—The secretary of war, while extending government aid to yellow fever sufferers, has repeatedly declared that he was actuated by no other law than that of humanity, but depended on approval of the entire country for his action. No one here doubts that he will have congressional sanction, but in order to give some assurances, Col. McArdle, of Vicksburg, who came hither on behalf of yellow fever sufferers, addressed a letter to Representatives Blackburn, Ellis and Gibson on the subject, who replied that if it should become necessary to pass laws validating and ratifying the secretary's action, it would certainly meet their most cordial support.

Report from Canton, Miss.

CANTON, Sept. 9.—Twenty-one new cases and four deaths during the last 24 hours. Fever seems to be spread ng in the country.

NORFOLK, Sept. 9.—Eight nurses left for Memphis to-day. Wilmington also sends nurses.

Nashville, Sept. 9.

NASHVILLE, Sept. 9.—Among the refugees from the south only four thus far are sick with fever or what is supposed to be yellow fever. Others not decided. Two supposed cases were removed to the infirmary, two miles from the city. One of the patients is a colored student at Fisk university who came from Mississippi via Memphis.

Supposed Cases near Cairo.

CAIRO, Sept. 9.—Five members of Thomas Porter's family, four miles above the city on the Mississippi river, are down with fever. Physicians here disagree as to the nature of the fever. None have reported yet.

A Statement Denied.

CINCINNATI, Sept. 9.—The statement telegraphed from this city last week by nspecial correspondent announcing on authority of Dr. Phythian of Newport, Ky., that there were 20 or 30 cases of malarial fever in Newport and that it was a mild type of the yellow fever, that physician states is unqualifiedly false. Nothing like yellow fever exists in Newport, and he made no such statement, neither did he have any conversat on with [illegible]

WASHINGTON, Sept. 10.—In reply to a telegram from the postmaster at Chicago asking if deposit of contributions for yellow fever sufferers in street letter boxes should be permitted, Acting Postmaster-General Tyner says: "There is no objection to the deposit of contributions in such street letter boxes as are in places of extraordinary safety."

Tuesday's Reports from New Orleans.

NEW ORLEANS, Sept. 10.—The Howard's report 325 new cases, including the sick and destitute.

Tuesday's Report from Memphis.

MEMPHIS, Sept. 10.—Physicians of the Howard corps report 411 new cases for the past 24 hours. The situation of the city is simply frightful. There are more sick than can be attended to. In the 7th, 8th, 9th and 10th wards, the most thickly settled portions of the city, there is not a single drug store open and great difficulty is experienced in getting prescriptions filled.

State Aid in Tennessee.

NASHVILLE, Sept. 9.—State Treasurer Marsh T. Polk, by advice of Governor Porter, has determined to issue provisions to the extent of $900 per week to fever sufferers a. Memphis.

Politics and Yellow Fever.

NEW ORLEANS, Sept. 9.—The Democratic and Conservative state central committee organized to-day by appointing its working committees and arranging for an effective canvass wherever it can properly be carried on. All absent canvassing dates have been requested to return to their districts with a view of canvassing the section not infested by fever.

The Peabody association issued 8,085 rations. Hereafter they will issue rations only on Mondays, Wednesdays and Fridays. Mayor E. A. Burke to-day furnished the Peabodys 5,000 loaves of bread for distribution.

CANADA.

Daring Burglary.

DUNDAS, Ont., Sept. 9.—At three o'clock this morning five masked men entered the Great Western railroad station, tied and gagged the watchman, and blew open the safe, which contained about $100 and a cheque for a small amount. The burglars escaped.

Afloat a Stand Off.

[From the Boston Journal.

He was an entire stranger to the girls present, and their boys were mean and would not introduce him. He finally plucked up courage, and stepping up to a young lady requested the pleasure of her company for the next dance. She looked at him in surprise, and informed him that she had not the pleasure of his acquaintance. "Well," remarked the young man, "you don't take any more chances than I do."

Orville Grant says, meditatively: "Hayes must save $45,000 a year. There ain't many receptions and dinners at the White House nowadays."

PACIFIC COAST NEWS.

CALIFORNIA.

The Chief Man of Letters.

SAN FRANCISCO, Sept. 9.—Postmaster General Key, and party arrived from Belmont this morning. The mayor's reception at the Palace Hotel this evening was a grand affair. The court was brilliantly illuminated; all the corridors having been thrown open to ladies and their escorts. A band of music was in attendance; also the first brigade of National Guards and a great crowd. The party leave for Los Angeles to-morrow afternoon.

Justice and Alta.

SAN FRANCISCO, Sept. 9.—An agreement between the Justice and Alta Mining Companies having been finally reached, a written contract is being prepared for signatures, which will be affixed this afternoon. The nature of the agreement is not yet officially promulgated, but it is understood to be as follows: Alta pays Justice $1,000 in gold coin and straightens its south line parallel with the north line of Justice. For the benefit of Justice Alta cuts a drift from its shaft to Justice's line, and gives the use of its shaft and machinery to hoist 250 tons per day, raise and lower men and material, and pump water, Justice paying its pro rata of running expenses of machinery. In consideration of these accommodations Justice releases all claims to the ground east of the west line of Alta and north of an agreed south line.

Celebration of Admission Day.

A concert was given at Metropolitan Temple this evening which was well attended.

A Gentleman from Oregon.

John Wilson was arrested this afternoon on Montgomery avenue, on charge of being an escape from the Oregon pen tentiary and also on suspicion of being one of the parties engaged in the recent robbery of the pawn broker's shop at Portland, attended by violence and murder.

Sale of Boxes in the California Theater for a Performance to Aid the Sufferers.

SAN FRANCISCO, Sept. 10.—A P. M. a great crowd gathered at the Merchants' Exchange to attend the auction of boxes and seats for Thursday afternoon matinee at the California Theater for the benefit of the yellow fever sufferers. Postmaster-General Key was first introduced and made a few remarks, after which Mrs. Oates of the English Opera troupe took the auctioneer's stand, and coached by the veteran, Gen. Colby, proceeded to sell the first box. One hundred dollars was the highest offer, and Mrs. Oates bid in the box herself at $110. The second box was purchased by E. F. Hall for $100. Mrs. Scott Siddons sold the third box, Wm. Harney taking it at $55. Mrs. Judah sold the fourth box for $70, the *Daily Stock Exchange* being the purchaser. Mr. Robson of the California theater, next took the stand and disposed of the fifth box for $55, to Mrs. Williams. Mr. Crane sold the sixth box to the *Daily Stock Report* for $60. Mrs. Potrell of the German dramatic company sold the seventh box for $55. Mr. Hecht being the purchaser; and the last box was knocked down by Geal, Cobb to Mr. Steele for $20. Sale of seats in the dress circle was then commenced by Gen. Cobb, Mrs. Saunders, of the California Theater, taking first choice at $5. The sale is still in progress, and bids fair to realize a large amount for the relief fund.

NEVADA.

An Infant Monster—Suicide—Chinese Head Tax.

VICTORIA, Sept. 10.—A terrible ten year old child was before the police magistrate yesterday. It was proven that he has been in the habit of cutting the feet off chickens and picking their eyes out with a pin; of cutting ducks feet off and making their walk on the bleeding stumps; of threatening to cut his sisters hands off, and standing over her with a knife almost cutting her throat; of setting fire to houses and in short always doing something outrageous and cruel. He was committed to jail preparatory to being sent to the lunatic asylum.

A young Canadian named Neilson blew out his brains at Yale yesterday morning.

The first Chinese head tax was collected yesterday by the government. The dominion officials in this province have taken steps to test the validity of the act that deprives them of the voting power.

The bark *Mathilde*, in ballast from Callao, 46 days, and the bark *Neveid*, 42 days from Yokohama, seeking, arrived yesterday.

Another Dispatch.

VICTORIA, Sept. 8.—The ship *Chacorna* will carry 40,000 cases of salmon to London, and will sail in a few days.

A brick kiln was blown up in the suburbs last night with a charge of gunpowder that had been built into one of the arches, and when the fire was applied to the bricks the explosion occurred. Chinese were employed about the works.

The ship *Gondolier*, with 850,000 feet of lumber from Moody & Co's. mills, will sail to-morrow for Valparaiso. The brig *Sheet Anchor*, laden with lumber and salmon for Australia, and the bark *Heck*, laden with coal for San Francisco, are ready for sea.

A public meeting held at New Westminster condemned the government separation policy.

BOUNDARY MONUMENT.

The Bellingham Bay *Mail* thus describes a stone of interest in the northern portion of Washington territory:

The national boundary monumental stone at Point Roberts, the northwest corner of the United States, is an imposing affair, resembling those erected in fashionable cemeteries to the memory of millionaires or distinguished individuals. This is not only the northwest corner post of this country, but the monumental stone under which has been buried the animosities and differences arising out of the boundary question of 1846 between the United States and Great Britain; when both governments receded from their respective pretensions (the United States claiming as far north as latitude 54-40 and Great Britain as far south as the Columbia river) and compromised on latitude 49 as the national boundary. Many years ago the national boundary line was duly staked out on the 49th parallel from the Eastern Lakes to Point Roberts, on the Gulf of Georgia, by a corps of engineers acting under the direction of the boundary commissioners. On reaching the western terminus, instead of marking the same with the ordinary iron stake used at intervals along the line, a large and imposing granite monument was caused to be erected. This monument is 18 feet square at the base and about 7 feet high. On the west side is the inscription: "Treaty of Washington, June 15, 1846." On the south side: "Archibald Campbell, U. S. Commissioner." On the east: "Lat. 49, long. 125-5-38; erected 1861." And on the other side: "Capt. J. C. Prevost, R. N.; Capt. H. Richards, R. N.; Lt. Col. J. S. Harkins, R. E.; H. B. M Commissioners." On visiting Point Roberts last week our attention was called to this imposing monument, said to have cost some $7,000.

Net Results of the Silver Law.

[From the New York Times.]

The whole benefit which has resulted from the measure has inured to the silver miners, the bullion dealers, the brokers, and the importers. The industrial classes the impoverished, and the indebted, on whose behalf it was so loudly demanded, have not derived a penny's worth of advantage from it, and it will be strange if they do not soon penetrate the selfish motives of the demagogues who have deceived them with false promises of relief from this most foolish and unnecessary piece of legislation. Its net result so far has been to transmute the customs receipts from gold into silver to almost the full extent to which the silver dollars have been issued, and to impair in like degree the gold reserve of the treasury. Let us not believe, if persistently made against him. We predict a harmonious and dignified session of the senate on all questions not purely political. The clerks of the senate, Messrs. Simpson and Baker, are gentlemen whose business ability and accommodating dispositions have heretofore been evinced in the discharge of duties similar to those now imposed upon them.

In the house, the Thompson family "had it all their own way" in the contest for the speakership. Hon. John M. had too much "positive strength" for our friend Gov. E. P. The gentleman chosen is an old Oregonian a lawyer of Eugene City, ready in his rulling, quick in action and will make a good presiding officer. The clerks of the house are also well known as men competent to fill their offices, having occupied the same positions two years ago. In fact Col. White appears to have a life lease of the chief clerkship under Democratic rule unless it should be terminated by his adherence to two offices at the same time, or by the failure of a quorum to vote when the fe is elected.

The legislature has so far done but little in a collective capacity that requires comment, though a vast deal of button-holing and caucusing have been done.

The newly elected state officers, except governor, have assumed their places and are now conducting affairs in their respective departments with smoothness and dispatch. State Treasurer Hirsch has appointed as assistant, Mr. J. F. Wheeler, a gentleman in every respect thoroughly competent, reliable and accommodating. A better selection would have been difficult to make. The assistant secretary of state, F. E. Hodgkin, is also well known.

Salem is well filled with people of all classes, the "rough" element being quite numerous, but not predominant by any means, nor will that element have much show in the capital as long as the people have the wisdom to continue in office their present efficient city marshal, Mr. John Minto. He guards the city's peace well, and the city is in a splendid condition, but the watchful, efficient janitor, Mr. Savage, who has for the past two years had charge of it, has kept it in best condition possible under the circumstances, and though we are not in a position to advise the party in power, we think they could not do better than to continue Mr. Savage in his position.

As I write a warm discussion is going on in the House on the question as to whether the state has a governor, and if so, how much and who. The argument develops the fact of the existence of very considerable talking ability in both parties, if the oratory cannot be called first-class.

All the members of the house are present except Evans of Umatilla, whom we are informed may not be present for several days.

I will barely touch the all-absorbing topic of the senatorial election to-day, as it as yet seems unfathomably as well as irretrievably mixed. The only straw yet seen is in the election of speaker of the house, which some say indicates that the wind is blowing toward A. Bush.

OREGON.

Hon. R. D. Geer is putting up a large hop drying house on his plantation in the Waldo hills.

Forty-three wagons unloaded wheat at the Farmers' warehouse at Salem on Monday forenoon.

A correspondent writing from Mehama, in Marion county, complains that the people thereabout are troubled by tramps.

An unknown man committed suicide by shooting himself while riding in the stage, between Grave creek and Roseburg, on Saturday, the 7th. He is supposed to have been insane.

Salem had prepared to receive Gov. Thayer at the depot on Saturday last; but he disappointed the crowd by jumping from the train at a side street and proceeding on foot to the state house.

Says the Salem *Statesman*: On last Friday night, the 6th inst., the stage from Yreka to Redding was stopped about 17 miles south of the former place by three masked men, who presented guns and demanded the mail sacks and express box. While the driver was preparing to comply with their peremptory request, Mr. John Reynolds, Wells, Fargo & Co.'s messenger, who was on the seat with the driver, shot the leader of the robbers dead. The horses, frightened at the report, commenced rearing and plunging, which disconcerted the robbers who fired, doing no other injury than killing one of the horses. After firing their pieces they plunged into a friendly thicket and disappeared. The dead man was left at a house near by.

WASHINGTON TERRITORY.

Cowlitz county Republicans will hold their convention at Kalama on the 24th, at 1 P. M.

The Presbyterian church at Seattle has secured the services of Rev. James White, late of Iowa City, Cal., as pastor.

It is said that Jacobs is "looming up" again as candidate for delegate. If he wants to be defeated by one thousand majority he will stand right in.

The second annual fair of the King County Industrial Association will be held in Yesler's hall, in Seattle, on the 25th, 26th, 27th and 28th of September. On the evening of the first day of the Fair Thomas Burke, Esq., will deliver the opening address.

A Good Deal in a Naughty World.

[From the Chicago Times.]

Mme. Annie Cook of Memphis, who kept the noted demi monde establishment, the Mansion House, has discharged all her female inmates and is making yellow fever garments of her elegantly furnished rooms. By her herself an expert in the management of this disease, she is personally superintending the making of all patients.

THE FIRST TRAMP.—The first regular tramp of which we have any authentic record was named Eden, who replied to the question "Whither cometh thou?" put to him by high authority, "From going to and fro in the earth, and walking up and down in it."—*Portsmouth, N. H., Chronicle.*

LETTER FROM THE CAPITAL.

FROM OUR REGULAR CORRESPONDENT.

OPENING OF THE LEGISLATURE—THE OFFICERS AND HOW THEY WERE CHOSEN—STATUS TEMPUS EVERY TIME—THE NEW STATE OFFICIALS—SALEM MATTERS GENERALLY.

SALEM, Sept. 10, 1878.

The tenth regular session of the Oregon legislature convened here yesterday, and with a fair degree of ease which is only attainable under strict "party usage" both houses completed a permanent organization. King Caesar did the business in "short order," and though the officers chosen are gentlemen entirely competent to discharge the duties of their respective positions, one who is free from his ideas, from the shackles of party usages and especially the fetters of the Democratic caucus system, the subservient obedience to the custom "more honored in the breach than in the observance" of men to that system, is somewhat inclined to look upon the manner of their choice with disapprobation.

The president of the senate, Hon. John Whiteaker, of Lane county, presided over the deliberations of that body two years ago, and though he is a regular bedrock Bourbon, his parliamentary practice has been considerable, and his rulings in the chair are usually respected by both parties. He is also quite as impartial as man can be who regard party usage as of so great importance. The fact is that though he has been so much in public life in Oregon no charge of dishonesty or charge of corruption, we believe, has ever been seriously made against him. We predict a harmonious and dignified session of the senate on all questions not purely political. The clerks of the senate, Messrs. Simpson and Baker, are gentlemen whose business ability and accommodating dispositions have heretofore been evinced in the discharge of duties similar to those now imposed upon them.

In the house, the Thompson family "had it all their own way" in the contest for the speakership. Hon. John M. had too much "positive strength" for our friend Gov. E. P. The gentleman chosen is an old Oregonian a lawyer of Eugene City, ready in his rulling, quick in action and will make a good presiding officer. The clerks of the house are also well known as men competent to fill their offices, having occupied the same positions two years ago. In fact Col. White appears to have a life lease of the chief clerkship under Democratic rule unless it should be terminated by his adherence to two offices at the same time, or by the failure of a quorum to vote when he is elected.

The legislature has so far done but little in a collective capacity that requires comment, though a vast deal of button-holing and caucusing have been done.

The newly elected state officers, except governor, have assumed their places and are now conducting affairs in their respective departments with smoothness and dispatch. State Treasurer Hirsch has appointed as assistant, Mr. J. F. Wheeler, a gentleman in every respect thoroughly competent, reliable and accommodating. A better selection would have been difficult to make. The assistant secretary of state, F. E. Hodgkin, is also well known.

Salem is well filled with people of all classes, the "rough" element being quite numerous, but not predominant by any means, nor will that element have much show in the capital as long as the people have the wisdom to continue in office their present efficient city marshal, Mr. John Minto. He guards the city's peace well, and the city is in a splendid condition, but the watchful, efficient janitor, Mr. Savage, who has for the past two years had charge of it, has kept it in best condition possible under the circumstances, and though we are not in a position to advise the party in power, we think they could not do better than to continue Mr. Savage in his position.

As I write a warm discussion is going on in the House on the question as to whether the state has a governor, and if so, how much and who. The argument develops the fact of the existence of very considerable talking ability in both parties, if the oratory cannot be called first-class.

All the members of the house are present except Evans of Umatilla, whom we are informed may not be present for several days.

I will barely touch the all-absorbing topic of the senatorial election to-day, as it as yet seems unfathomably as well as irretrievably mixed. The only straw yet seen is in the election of speaker of the house, which some say indicates that the wind is blowing toward A. Bush.

OREGON LEGISLATURE.

Tenth Biennial Session.

Senate.

Senate met at 10 o'clock.

Minutes of the preceding day were read and approved.

A message from the house, announcing its organization was read; also house joint resolution No. 1, proposing that the house meet the senate at 11 o'clock to-day to canvass the vote for governor, the senate concurring. Communication.

Isaac Steinbacher and John Jennings were appointed pages, and sworn in.

Brown, of Coos offered a resolution proposing to adopt the rule of 1866 for the regulation of this body. The resolution was adopted.

A message from the house, being enrolled joint No. 2, appointing a committee of three of the house, and two of the senate to wait on Gov. Chadwick and inform him that the two houses are ready for business. Thompson, Hewitt and Hendricks were appointed committee of the house. The resolution was adopted.

Haley, of Linn, and Hirsch, of Multnomah, were appointed on the part of the senate.

The senator from Douglas, Colvig, offered S. R. 2, that the reporters of the several papers of the state be invited to a seat within the bar, and supplied with stationery etc.

The senator from Lane offered resolution No. 3, *Resolved*, That the senate committee on judiciary appoint stenographers.

Moved that the house committee on judiciary appoint stenographers. Carried.

Moved that the house committee on enrollment of the pages; adopted.

Message from the House.

H. J. R. 3—*Resolved*, That a committee of three of the senate and five of the house be appointed to investigate the affairs of the Oregon state penitentiary for the past two years, by law.

Mr. Haley, chairman of the committee to wait on the governor, reports that the governor is ready to meet the houses at any hour this afternoon that may be appointed.

Senator Colvig, from Douglas offered concurrent resolution No. 1, that a committee of five, two on the part of the senate and three of the house, be appointed to report on the management, care and treatment of the insane, by the 15th of September. Amended, and to employ a clerk and take testimony. The amendment was adopted.

Moved to strike out the 15th of September and insert the 26th of the same.

Moved to lay concurrent resolution No. 1 on the table; carried.

The house sent to inform the senate that it was ready to receive that body in order to canvass the vote for governor.

The president ordered the senate to proceed to the house for that purpose.

Afternoon Session.

The senate was called to order.

A committee on penitentiary was appointed, consisting of Kelsay, Bradshaw and Colvig.

Brown offered a resolution that three newspapers be furnished each member; carried.

Myers from Clackamas offered S. R. No. 5, that a committee be appointed to wait on the governor-elect and inform him of his election.

Hirsch offered a resolution that five dollars worth of stamps and paper wrappers be furnished; carried.

The senate appointed as committee to wait on the governor Messrs. Myers and Gilm.

Colvig, from Douglas, offered S. R. No. 3, that a committee on fishing interests be appointed: Colvig and Bilyeu were appointed from the senate.

The committee appointed to wait on the governor reported him ready to meet the houses at any time.

A joint resolution of the houses to meet at 9 o'clock to-morrow to hear the communication of the outgoing and incoming of the incoming governor was carried in the senate.

It was moved that S. R. No. 1, relating to insane asylum, be taken from the table; carried and substitute offered adopted.

Bilyeu of Linn, Watt of Washington and Ross of Jackson were appointed committee on insane asylum, to report at any time by bill or otherwise.

Adjourned to 8:30 A. M. to-morrow.

House.

The house met at the appointed hour, the speaker in the chair and a quorum present.

The minutes of yesterday's proceedings were read and, with one or two corrections in names, were approved.

On motion of Thompson, the rules of the last House of representatives were adopted for the government of this body.

Galloway offered a joint resolution providing that the first Tuesday in October be appointed for the election of a state printer; committee to wait on Gov. R. P. Earhart and inform him that the house is organized and ready to receive any communication he may wish to make.

Galloway, Bates, Green and Norris opposed the resolution on the ground that Earhart is not governor, and that Gov. Chadwick holds the office until the installation of his successor.

Thompson, Reed, Ramsby, Stadtweather and Bradley favored the resolution on the quite plausible position that Chadwick holding the office of governor by virtue of his office of secretary of state, when he ceased to hold the latter he cannot hold on to the former.

The discussion proceeded to some length.

Green moved to strike out the name of Earhart and insert that of Chadwick.

Galloway moved to lay the resolution on the table. The motion to lay on the table was lost.

The motion to strike out prevailed by a strict party vote and the original resolution changing the governor was adopted by the same vote, except Mr. Speaker, who voted no.

On motion, the members will retain the seats now occupied by them respectively unless changing by mutual consent of those interested.

Gates offered the following joint resolution providing for the appointment of a joint committee of three on part of the senate and five on part of the house to investigate the affairs of the Oregon penitentiary for the past two years.

The resolution was adopted.

Gates gave notice that on to-morrow or thereafter he would introduce certain bills.

Hewitt gave similar notice.

A message from the senate announced the adoption by that body of joint resolution relating to canvassing gubernatorial vote.

The house then took a recess of twenty minutes.

Being again called to order, messages from the senate were received announcing the concurrence of that body in the joint resolutions providing for a committee to wait on the governor, and for a committee to investigate penitentiary affairs.

Stearns offered a resolution instructing the sergeant-at-arms to furnish each member with four daily newspapers, to be selected by them respectively.

Galloway moved to amend by fixing the number at two instead of four.

Hughes moved to amend by inserting the words "or weekly."

The chair announced that the hour had arrived to go into joint convention to canvass the vote for governor.

The senate appeared and took seats within the bar of the house.

The joint convention was called to order and the roll called, all the members being present except Carter of Benton and Evarts of Umatilla.

The speaker of the house then read the abstracts of votes cast in several counties, as filed in the office of the secretary of state. The clerks wrote up the total results, which was as follows:

For governor W. W. Thayer received 16,201 votes, C. C. Beekman 16,132 votes, M. Wilkins 1,432 votes.

Mr. Thayer having received the highest number of votes, was declared elected governor of the state of Oregon for

STILL NO REMEDY

Up to Monday night eighty three arrests had already been made in Portland this month and twenty seven great lazy varlets were in the city jail living at the public expense Yet no measures are adopted to compel them to work on the streets It appears that the common council will not pay a man to be selected by the police commission to guard and work the prisoners but wants to compel the commissioners to place the prisoners in charge of a man of its own selection whom they have made assistant superintendent of streets It so happens that this person was dismissed from the police force because the commissioners did not have confidence in him and they refuse to place the prisoners under his charge So he loafers and scamps in the city jail are having a good time We may observe right here that the common council in claiming to have its man commissioned for this purpose assumes a right which is not given it either by the charter or by its own ordinance No common council ever exhibited so much eagerness to control petty patronage as the present one We do not refer to the entire council but to the regency which governs it Ever since the common council was constituted as now there has been a perpetual see saw on all matters referring to official places and patronage [illegible] that the police commission is not free from the like fault But in this particular case the council goes beyond its own province Contention over little official places seems to fill very well the measure of its capacity Citizens don t care particularly whether the common council's man or the police commissions man has charge of the oafers and scrubs in the city jail What is wanted is that they be put in safe keeping and compelled to work But as it is the business of the police department under charter and ordinance to have charge of the prisoners, the common council in this matter is wholly in the wrong It has no right whatever to dictate who shall be commissioned on the police force True, it will be said that if the assistant superintendent of streets be commissioned for this special purpose a salary will be saved But the council has shown by its action in other things that it doesn't care whether money is saved or not and as it would require all the time of the assistant superintendent of streets to work the prisoners, the argument that he ought to be commissioned to take them in charge is simply an argument that he now has nothing to do, and as an official isn't wanted But the main point is that the scamps who commit petty offenses in order to get into the city jail and be taken care of be forced to work ten hours a day on the streets and as citizens want the result they care little how it is brought about But not much can be expected from a city government dominated so largely by petty motives and given up to greeds grudges, dissensions rivalries and rings

REACHING FOR THE MAIN CHANCE

Mr Slater has never been backward In his inclination to press his own claims for office has never been the ruin of him Effort in this line has never been repugnant to his feelings or if it has he has always triumphed nobly over his modesty and reluctance [illegible] many years he has been a candidate for the [illegible] he wrote a very peculiar though characteristic letter which shortly afterwards by some means obtained publicity through the Baker *Democrat* In this letter he plainly intimated that his ultimate object was the United States senate But if he could get the nomination for the judgeship in the fifth district he was very sure of being elected to that position as his party has a large majority in that section of the state and thus he would have a sure thing on a good place in any event while it was doubtful whether he could obtain an election to the senate Nevertheless as to the senate even though he should take the judgeship all rights were carefully reserved To quote his own words "The acceptance of this position (the judgeship) will not however necessarily place me beyond reach of the one most desirable." The delicacy of this is apparent. The gentleman who was willing to "stand" for any "desirable office that happened to be vacant, was willing to take the judgeship and the oath not to accept any other office, though scheming to get one at the same time We believe there has been no more intrepid hunt for office in all the history of office hunting in our state than this letter discloses Bad as it may look and be for a man who has taken the oath not to accept any other office to accept it afterwards under circumstances which he did not anticipate it is not half so objectionable as though the oath had been taken with deliberate purpose to disregard it if only the perjury could be turned to advantage But these no doubt are refinements which so eager an officer seeker would not in the least comprehend Mr Slater saw what he wanted he wanted anything within sight, and wasn't ashamed to say so This incident will fit very well with the letter defending Mr Slater's acceptance of back pay

EXPENSE OF THE INSANE

It has never been questioned that the care of the insane under Dr Hawthorne has been all that could be expected or reasonably desired Nor can it be claimed that the rate paid by the state is an excessive one It is not urged that any reform is required within the asylum Nevertheless it is a fact that the institution is a great public burden which might be materially lightened by judicious legislation This legislation should refer to the methods under which [illegible] are sent to the asylum to be a public charge We have heretofore reviewed at length a bill on this subject which was introduced during the last session of the legislature Its primary object was to make each county responsible to the state for the expense of keeping the insane sent by it to the asylum to give the county a lien on any property of the insane person for the charge and to discourage [illegible] habits of [illegible] they are morally bound to suffer [illegible] on the benevolence of the public [illegible] would reduce this great [illegible] by many thousands of dollars ever year cannot be doubted The bill we refer to was we believe introduced either by Cochran of Lane or Watt of Washington both of whom are members at the present time Should the bill be revived and reasons duly considered the public interests might be well subserved thereby

Gen Charles H Tompkins deputy quarter master general who arrived recently in Chicago from an extended tour over the route of the Northern Pacific railroad far into Montana has stated to the Chicago *Tribune* his impressions of the country through which the proposed extension of the road is to run He gives a most flattering account of the country says its agricultural and mineral resources are boundless gives it as his opinion that the road would within a very short time pay a return upon the investment and is sure the country would receive more than an equivalent for its lands in reduced cost of transportation and the speedy settlement of the Indian question throughout the whole northwest

The president has removed Postmaster Filley of St Louis for violation of his civil service order Regardless of that order Mr Filley has continued his efforts to control primaries, conventions and elections What if the order were enforced in Oregon? It would remove nearly all leading federal officials in the state For months their entire efforts have been devoted to the work for which the postmaster of St Louis is removed That they didn't succeed in their object makes no difference as to the fact Possibly some of them may yet hear a gentle admonition

A funny discovery has been made by a reporter of an eastern journal who has talked with Kearney as to the origin of the sand lot orator's expression lecherous bondholders The general supposition has been that the adjective was chosen to denote that the villains who own bonds are given to licentiousness But it turns out that the expression lecherous was selected on the supposition that it was derived from the habits of the slimy imps who are owners of bonds

In thirteen years the interest bearing debt of the United States has been reduced by the great sum of $572 000 000 Reduction of interest has been $56,000 000 a year At this rate the whole balance of the debt will be paid in about twenty years

Wouldn't it be worth while for our legislature to elect Gen Lane to the senate just for the sake of giving the country another Oregon sensation

CITY.

A GHOST AT THE DALLES.—During the past week the people of the Dalles have been greatly excited by the nightly appearance in the streets and other prominent places of a mysterious ghostly personage which is supposed by the credulous to be the spirit of Pat Whalen the man who was killed on the steamboat *Spokane* by Capt Baughman about two weeks ago The apparition or whatever it may be appears at dusk and remains for an hour or more seeking to be with rather than avoid the crowd It is enveloped in a long black something and appears to be a dense shadow rather than a substantial being The most singular circumstance connected with the affair is that although fifty men have declared that they would investigate it still it remains a mystery It seems to strike terror to all who come in close contact with it It has a habit of entering the grounds of private houses and has a particular fondness for Judge McArthur's residence. Nearly every person in the Dalles has seen the figure and it passed within three feet of where our informant was standing on the sidewalk There can be no doubt but that it is a hoax gotten up by some mischievous person

CHARITY ENTERTAINMENT.—The entertainment given last evening at the Taylor street M E church was a decided success in every way The attendance was large and the proceeds must have netted a handsome sum towards the charitable object for which they are destined—the unfortunate sufferers by the yellow fever in the south The good people of this fair city evidently believe in the scriptural adage, Charity covers the multitude of sins The exhibition consisted first of miscellaneous views principally European followed by a series of views from Palestine, and, lastly a number of very instructive astrological illustrations, showing the solar system, the causes of day and night eclipses, &c. The exhibitor Rev C W Hewes explained in a clear and concise manner each scene in succession, which ended very much to render the entertainment both instructive and amusing to old and young

TRAIN DELAYED—SHED BURNED.—Yesterday the north bound train did not reach this city until after 7 o clock The delay was occasioned by the wood shed at Milwaukie station catching fire The shed caught fire from some cinders from the woods which were burning a short distance away Every possible effort was made to extinguish the fire, but without success The building and a large quantity of wood which was stored for the use of the railroad company was destroyed. The loss will reach several hundred dollars. Owing to the proximity of the road to the shed the trains could not pass and passengers and baggage had to be transferred from the express to the mail train

THE ALPHA SOCIETY.—The members of this well known society will meet to-night in the parlor of the Taylor street church for the purpose of reorganizing for the coming winter It is desirable that all members be present.

FIREMAN'S BADGE LOST.—During the fire yesterday Mr Thomas Logan lost his badge (494). The finder will confer a favor by leaving it at this office

THIS IS NOT RETRENCHMENT.

For several years past the city surveyor of Portland, an official who possesses $ 800 per year for doing a comparatively small amount of work has been allowed the assistance of two chainbearers whose compensation is also paid by the city This compensation was fixed by ordinance at $3 for each day's actual work and for this amount the service has always been done efficiently and well During Mr Taylor's term as city surveyor Messrs. F W Graham and C. F. Besser were employed as chainbearers, but some days after the appointment of the present incumbent they were let out and Messrs. Ezra Lamb Smith, the latter a son in law of Mr Jacob Landers, chairman of the council committee on streets and public property were appointed in their stead At a meeting of the common council, held on August 21st Mr Lamb as chairman of the committee on streets and public property introduced into the council an ordinance amending the ordinance in relation to defining the duties and fixing the compensation of the officers constituting the street department so that these newly appointed chainbearers shall hereafter receive a stated monthly salary of $60 each whether a full month's one day or no service will be performed The amendment was read twice and laid over for future action that being the regular order of such business This amendment does not increase or change in any way the duties of the parties for whose benefit it is introduced and the extra expense which it will cause the city is obvious from the following statement which is shown by the report of the auditor and clerk. During the half year preceding their discharge Besser and Graden received as per the fee bill being $3 for each day's actual service, $264 50, an average of $42 64 each per month For the year preceding their discharge they received an average of $68 and a small fraction over each per month They are experienced and efficient men and would doubtless have served the new surveyor at the same rate of their former engagement. But no Mr Lamb's son in law and the useful man must be provided for not only with easy employment at good pay but with good pay during the winter months when little or no work can be done and consequently no money earned. The amendment, for which there is no need and in which there is not the slightest pretext of justice will, if passed cost the city nearly $800 per year more than the large sum now paid for superfluous service.

The fitting work done by the city surveyor with his whole salary, the amount paid to his subordinates, rent of office which the city pays stationery, etc., could be had by contract for the same paid than a fifth of the above

TO THE EDITOR OF THE OREGONIAN

It has been announced by the city press that an entertainment will be given for the benefit of the sufferers by yellow fever on Friday evening next As the avaricious gentleman seems to have been made by the appointment party who seeks notoriety as a charitable benefactor as well as a liberal manager I desire to say that there has been no meeting of a committee called for any such purpose that this gentleman who has entered the office on the 1st inst has done so without a shadow of authority of some action of those whose names he publishes as a committee I have always been pleased to assist in any entertainment for charitable purposes and I will be the very last to complain of the use of my name but like to see purposes and this current for honest purposes and this self appointed manager possess the necessities of actors or actresses for the public should have been permitted to expend upon representations and make a proper order of services to the committee

EDWIN M STANTON

WHAT JUDGE HILTON OF NEW YORK SAYS ABOUT HIM

Sa atoga Letter of Oath to Cincinnati Enquirer

Judge Hilton said of Edward M Stanton yesterday There lived one of the purest most devoted men who ever served a government He ranks only with the very highest of the steadfast with Sully Oxenstern Pitt Carnot and Bismarck He was very poor and Mr A T Stewart wished to start a subscription for him He said to me Mr Hilton go ar ound and get what subscriptions you can and I will make up the rest But do not let Stanton know it as he is a peculiar man and I he should disapprove of it we will get his frown instead of his smile So I went to see Stanton after a little while and he said to me Judge Hilton I learn that you are raising an endowment for me If you do I shall refuse as I am perfectly easy in my circumstances Now we knew at the time that Stanton was pressed and poor but we had to wait till he died and collect the money for his widow

The judge added Stanton was such an excellent lawyer so logical and original and conscientious that Judge Jerry Black of Pennsylvania who was afterwards so unjust to him probably recommended him to Buchanan as a cabinet minister Black used to say What a treat we had to day Stanton made an argument before us He was not the man to be on hand when the crowd proposed three cheers for Tom Thumb But his domestic life and sense of humor and love for his friends were beautiful I was in his office when he cashiered a hospital lieutenant for going home to take a nap when the wounded were coming in from Harrison's bar Stanton was out all that forenoon personally providing for those people He sent for the dilatory officer. I stood by and heard him say in a quiet tone, though with wounded feelings

How could yor sleep in peace while those suffering men were in torture for accommodations? He cashiered the lieutenant on the spot It was done very quietly but next day the newspapers said he had torn out his hair and danced around in rage He was so sick the last time I saw him that he put his arm around me affectionately and tried to rise, but sank back exhausted"

Dan Dougherty, of Philadelphia, was standing by and said, His sense of humor was really nice. I went once to the war office and he slipped around and pulled me in a door, and called in Dana, the assistant secretary of war, now deceased He said Now Dan tell me the story about ——— Do let us have it' I had to tell him story on story, and can hear his merry laughter yet. We can't get up men like Stanton in Pennsylvania, though he was of our stock

Judge Hilton added I was always a Democrat, but a war Democrat I stood by Governor Seymour when he addressed the rioters as my friends At that time Sam. Tilden was so coppery that he can taste it yet I always thought McClellan a military fraud"

ITEMS IN GENERAL

This is a good item. Since last March there have died no less than forty newspapers which advocated the greenback cause in the states of Illinois, Michigan and Wisconsin

Senator Booth of California owns the first silver certificate struck off by the government It is marked "Series A, No 1" and is indorsed, "Good for twenty silver dollars

Senator Blaine has accepted an invitation from the Honest Money League of the Northwest to deliver an address in Chicago the latter part of September on the money question

When the nurse brought twins to a fond husband in Paris recently he threw up his hands abrugged his shoulders and exclaimed ' Everything has doubled during the exhibition '

It is rumored that the next wedding in the Bonaparte family will be, not that of the prince imperial, but of the ex empress, Eugenie She has been having a good time in Vienna

About the smallest dividend on record is that which a firm of bankrupt Montreal brokers pay Sir Hugh Allan, one of the creditors, on a claim of $200,000 gets $750, a shrinkage of $199,250.

The Buffalo *Express* puts this timely conundrum Can these be very hard times—can a country be very "hard up —which consumes 50 000 000 gallons of whisky, 10,000,000 barrels of beer and 2,000,000 cigars in a single year

LITERARY NOTES

Miss Braddon's thirty third and latest book, ' An Open Verdict, has just been printed in England in cheap form

The *Athenæum* says The fact that, as a rule novels to have a chance of success must be in three volumes, remains a mystery of fate.

According to the *Ten Year Book*, Cornell University has turned out more lawyers than anything else so far The educators stand next in rank

It is stated by *Harper's Weekly* that Mr Charles A Stetson, formerly of the Astor House, is to publish a book of personal reminiscences He was the host of Daniel Webster and other distinguished men and is a capital story teller

The most voluminous and important Roman Catholic publication ever undertaken in this country is the publication of Dr Alzog's *Church History* The American editors have been engaged upon the work for six years and have taken every care to make it one of the best, if not the best manual of universal church history in the English language

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Nervous Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness for it is well understood that without health there can be no happiness

DR BRENAN

has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including Spermatorrhea, Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand and the patient need no fear the result

DR BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them! they are known by unprompted by selfish motives and what they can make Be sure and ask for DR PAUL M BRENAN the *Medical Lecturer* and read his sign on his door
